

# ALCF

# Intro to AI-driven Science on Supercomputers

# ALCF Resource Access

- **ALCF accounts** will be active thru Dec 31, 2022
  - Access to ThetaGPU and AI Testbeds
- **Slack** will be available thru Dec 20, 2022
  - Make sure to download any resources on Slack before then

# Certificate of Completion Requirements

- All session homework submitted by **Nov 15, 2022**
  - <https://forms.gle/inngiVazJFhNrvtt9>
  - Reach out to Paige Kinsley for HW completion count
- What you will receive with email used to register
  - Certificate of Completion from ALCF
  - Digital Badge
    - Show on LinkedIn, CV, etc.

# AI for Science on Supercomputers

## *Certificate of Completion*

*Presented to*

**First Name Last Name**

*For your commitment to continued learning and professional development*

September 20 – November 8, 2022

---

*Director of Argonne Leadership Computing Facility*

Argonne Leadership  
Computing Facility

# Thank you to our Instructors!

Taylor Childers

Bethany Lusch

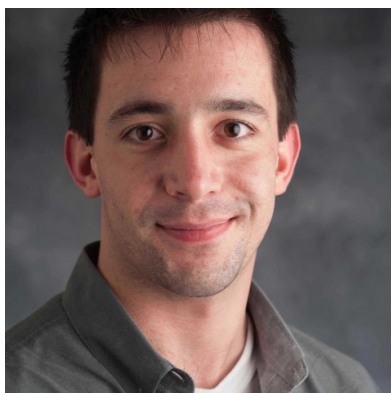

Tanwi Mallick

Corey Adams

Huihuo Zheng

Sam Foreman

Venkat Vishwanath

Carlo Graziani

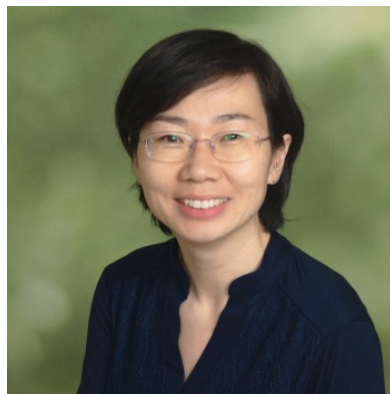

# Thank you to our Science Speakers!

Nicola Ferrier

Austin Clyde

Jiali Wang

Arvind Ramanathan

Riccardo Balin

Eliu Huerta

Alvaro Vazquez-  
Mayagoitia

# Final Series Survey

**Look for survey sent over email and Slack about the series.**

***We welcome you feedback about the series!***

# What's next? Come do research at Argonne

## Undergraduate Internships

- Work with Argonne scientists on projects in clean energy, environment, computing, and national security
- 10-week summer program
- Application deadline Jan 10, 2023

More info here:

## Graduate Internships

- Summer terms to work with experts in computing sciences, parallel programming, machine learning, quantum computing and many more
- Application deadlines Jan 15, 2023

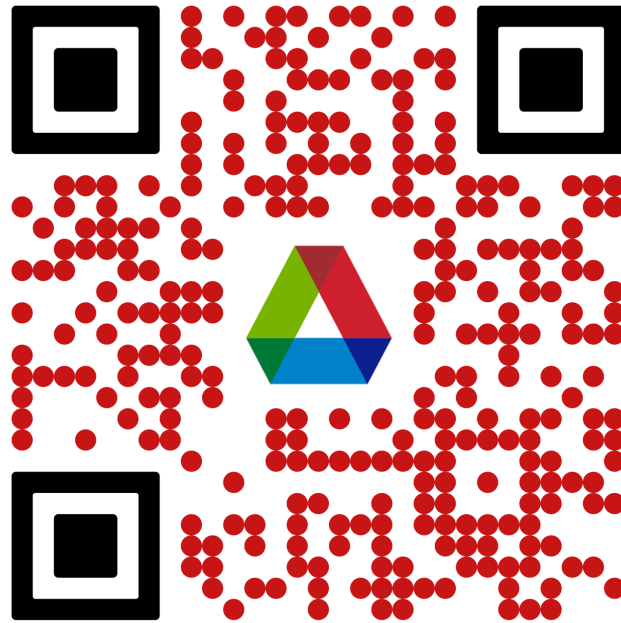

More info here:

# Computational Post-doc Opportunities at Argonne

Is graduation around the corner? Come do a post-doc at Argonne!

More info here

# Thank you for attending and engaging!

Reach out with any questions at the series, ALCF, and Argonne National Laboratory.
